PROFESSIONAL SUMMARY

Intermediate Back-End Developer with over **5 years of experience** in PHP-based development, scalable architecture, and RESTful API integration. Adept in Agile development environments, MVC design patterns, and Git-based collaboration. Proven track record of delivering clean, maintainable code in Linux/Unix environments. Experience spans microservices, **CMS platforms** (WordPress, Laravel, Craft CMS), and tools like Docker and Composer. Collaborative and detail-oriented, with strong communication skills and a passion for building resilient back-end systems.

TECHNICAL SKILLS

Languages & Frameworks:
PHP (Laravel, WordPress, Craft CMS), JavaScript (Vue.js, React.js), HTML5, CSS3, Node.js

DevOps & Tools:
Git, GitHub, Docker (basic), Bash, Composer, CI/CD (GitHub Actions, Jenkins)

Web & API Development:
RESTful APIs, JSON, MVC architecture, Microservices

Environments:
Linux/Unix (Ubuntu), Agile/Scrum, Jira, Trello, Peer Code Reviews

Database & Performance:
MySQL, MongoDB, SQL Server, Query Optimization, Caching

PROFESSIONAL EXPERIENCE

Web Developer – Envision Solution, Canada *(Sep 2022 – Oct 2023)*

- Developed **custom CMS solutions** and high-performance web applications using **PHP Laravel** and **React.js**.
- Designed and implemented **secure REST APIs** to handle real-time data for mobile and web applications.
- Improved website speed by **40%** by implementing efficient **SQL indexing and caching mechanisms**.
- Collaborated in Agile teams, using **Jira/Trello, daily stand-ups, and sprint planning** for efficient project execution.

Web Developer – ZealousWeb Technologies Pvt. Ltd., India *(May 2018 – Sep 2022)*

- Led backend logic development using **Laravel** and **CraftCMS**, improving application maintainability and scalability.
- Interacted with **Git** for branching, merging, and version control in multi-developer environments.
- Built custom plugins and **RESTful APIs**, and participated in Agile delivery sprints.
- Integrated **third-party services** (Stripe and Twilio) for enhanced user functionality.
- Worked in a Linux-based setup and assisted with deployment scripting and server monitoring.
- Mentored junior developers and coordinated integration across backend and frontend teams.

Trainee Web Developer – ZealousWeb Technologies Pvt. Ltd., India *(Dec 2017 – Apr 2018)*

- Assisted in full-stack development using **PHP, Laravel, JavaScript, and CSS**.
- Gained hands-on experience with **front-end frameworks and API integrations**.

PROJECTS

Tradesman's Trust – Mobile Service Marketplace (Australia)

- Developed the backend for *Tradesman's Trust*, a mobile application connecting users with verified service professionals including home service providers, repair technicians, beauticians, and more.
- Designed and implemented a scalable database architecture to support diverse service categories and user roles.
- Built robust RESTful APIs using Laravel for mobile app functionalities, ensuring seamless user experience and fast response times.
- Developed a secure and user-friendly admin panel for managing users, bookings, payments, service listings, and platform content.
- Integrated Stripe for secure online payments and Twilio for real-time SMS notifications, enhancing user engagement and transaction transparency.
- Collaborated with cross-functional teams, including mobile developers, UI/UX designers, and QA engineers, to align backend functionality with front-end requirements.
- Mentored and trained two junior developers, providing guidance on Laravel development, code optimization, and project workflows.

Locamundo – Global Film Location Marketplace

- Developed and maintained the web application for *Locamundo*, a premier platform connecting location scouts, property owners, and production companies to facilitate the discovery and marketing of filming locations worldwide
- Designed and implemented responsive frontend interfaces using modern JavaScript frameworks, enhancing user experience across devices.
- Integrated secure authentication mechanisms and user roles to facilitate direct communication between scouts and clients without intermediaries.
- Collaborated with cross-functional teams, including designers and product managers, to align development efforts with business objectives and user needs.

EDUCATION

Web Development, Conestoga College, Canada

JANUARY-2024 to APRIL-2025

Master of Computer Application, Charotar University of Science and Technology, India

JULY-2016 to APRIL-2018

Bachelor of Computer Application, VNSGU, India

JUNE-2013 to FEBRUARY-2016
